Reasons for Allowance

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Lieberstein on May 12, 2006. The purpose of the examiner's amendment was to place the application in condition for allowance by adding minor claim language to claim 2.

The application has been amended as follows:

IN THE CLAIMS:

In claim 2: In line 3, - - on- - has been inserted prior to "the medium".

2. The following is an examiner's statement of reasons for allowance: Regarding claim 1, the prior art does not teach or render obvious an internal cover located between the top cover unit and the back case unit with the internal cover being assembled to the printer to open and close to the top cover unit and with the internal cover having one side forming a medium transportation path for the medium when the internal cover is closed and for providing easy access to the medium transportation path for maintenance when the internal cover is opened.

Regarding claim 5, the prior art does not teach or render obvious an internal cover located between the top cover unit and the back case unit and assembled to open and close to the top cover unit, an insertion opening through which the medium can be inserted into the printer and wherein when the internal cover is closed, a medium transportation path is formed with the medium transportation path having one end adjacent the insertion opening for conveying the medium between the internal cover and the top cover unit and with the data reading device disposed adjacent the medium transportation path.

Regarding claim 22, the prior art does not teach or render obvious an internal cover located between the top cover and the body which can open and close when the top cover is open with the internal cover assembled relative to the top cover such that a medium transportation path is formed only when the internal cover is closed for conveying the external medium to the data reading device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marissa L. Ferguson-Samreth whose telephone number is (571) 272-2163. The examiner can normally be reached on (M-T) 6:30am-4:00pm and every other (F) 7:30am-4:00.
